

Integrated STEM Education Cohort

What is the Integrated STEM Cohort?

STEM education goes beyond science, technology, engineering, and mathematics. It's a hands-on, design-based approach that prepares students for future careers and is relevant across all grade levels and content areas.

The **Integrated STEM Education Cohort** is designed to support you in building a strong internal STEM steering committee that understands the Texas Education Agency (TEA) STEM Education Framework and can confidently leverage the TEA STEM Toolkit to meet local needs and instructional goals.

Cohort Options

Build your STEM capacity with cost-effective, impactful cohort experiences, including:

- TEA Statewide STEM training, with TEA-issued digital badge, for all cohort members
- Tailored program development support
- Co-created staff development to help put your plans into action

Program Structure

Our cohort structure is economical, flexible and focused on your local needs:

- Save 20% or more by bundling services
- Choose from two different bundles depending on the size and needs of your team/campus/district
- Get a 13% discount on additional services

Certification Add-Ons

Extend your integrated STEM journey with nationally-recognized STEM certifications from the National Institute for STEM Education (NISE).

- NISE National Certificate for STEM Teaching (NCST)
- NISE National Certificate for STEM Excellence (NCSE)
